

Homework – deadline Thursday 9 a.m. for getting it implemented the same day – mail to lene.antonсен@uit.no

- ▶ Improve the Leksa lexicon: corrections, more words, more synonyms...
- ▶ Make Morfa-C matrices
- ▶ Make necessary paradigms for Morfa-C

If you are short of time, do the first task, and then you can do the rest later and send it to me, and we will implement it.

Matrix 1

```
<?xml version="1.0" encoding="utf-8"?>
<questions>
<q id="nacc">
  <qtype>N-ACC</qtype>
  <question>
    <text>What girl drink</text>
  </question>
  <answer>
    <text>Girl drink N-ACC</text>
    <element game='morfa' id="N-ACC" task="yes">
      <grammar tag="N+Sg+Acc"/>
      <sem class="DRINK"/>
    </element>
  </answer>
</q>
</questions>
```

Matrix 2

```
<?xml version="1.0" encoding="utf-8"?>
<questions>
<q id="nacc">
  <qtype>N-ACC</qtype>
  <question>
    <text>What PERSON drink</text>
    <element id="PERSON">
      <grammar pos="N+Sg+Nom"/>
      <sem class="HUMAN"/>
    </element>
  </question>
  <answer>
    <text>PERSON drink N-ACC</text>
    <element game='morfa' id="N-ACC" task="yes">
      <grammar tag="N+Sg+Acc"/>
      <sem class="DRINK"/>
    </element>
  </answer>
</q>
</questions>
```
